For our Carved and Specialty Candles

Burn the candle for short periods of time. (60 minutes)

Before lighting, cut a dime sized hole around the wick. (funnel shape)

Be aware of any drafts of air while burning the candle.

Every 20-30 minutes you have to pour out excess wax that is accumulating in the top.

Before relighting. Always trim the wick to 1/4 inch.

Do not wash candles.

Do not refrigerate or allow candles to freeze.

Refill larger top candles with votive candles. Use a small section of a taper candle for the smaller top candles.

NEVER BURN CANDLE UNATTENDED!!!!!!!

For our Scented Jar Candles

Trim the wick to 1/4 inch before burning.

Do not dump out the wax or push the sides down.

Do not burn the candle in a draft.

NEVER BURN CANDLE UNATTENDED!!!!!!!
